OBJECTIVE

MCA Graduate with good knowledge of Python, HTML, CSS,Django,JavaScript, React.js and MySQL. . Interested in software development and eager to learn new technologies. Possess good problem-solving and communication skills with a positive attitude toward learning. Seeking an entry-level opportunity in an IT company to apply my skills, gain practical experience, and grow as a software professional.

EDUCATION

Vivekananda P.G. College 2024 – 2026
MCA – Master of Computer Applications *CGPA: 7.0*

Govt. Arts & Science Degree College, Kamareddy March 2022
B.Sc – MPCs *CGPA: 7.44*

NRI Junior College, Ganesh Nagar, Chintal, Hyderabad May 2018
Intermediate – MPC *Marks: 564*

Govt. High School, Athmakur March 2015
SSC *CGPA: 8.5*

SKILLS

Programming: Python
Web Technologies: HTML, CSS,Django, JavaScript,React.js
Database: MySQL
Tools: Git, GitHub, VS Code
Concepts: File Handling, DOM Manipulation, Form Validation

INTERNSHIP

Cyber Security Data Protection Using Hybrid Encryption and Steganography

Technologies: Python, Cryptography, Hybrid Encryption, Steganography

- Developed a secure data protection system using hybrid encryption and steganography to protect sensitive information from unauthorized access.
- Implemented encryption techniques to securely encode data before embedding it into digital images, providing an additional layer of security.
- Applied steganography techniques for secure data hiding and implemented data extraction and decryption mechanisms to retrieve the original information.
- Tested the system for secure data embedding, extraction, encryption, and decryption while maintaining data confidentiality and integrity.

PROJECTS

Secure File Storage System with Encryption and Role-Based Access Control

Technologies: React.js, Django, HTML, CSS, JavaScript

- Developed a secure web-based file storage system for uploading, storing, managing, and accessing files through an authenticated application.
- Implemented file encryption mechanisms to protect stored files and prevent unauthorized access to sensitive data.
- Designed and integrated Role-Based Access Control (RBAC) to manage user permissions and restrict file operations based on assigned roles.
- Developed a responsive and interactive frontend using React.js, HTML, CSS, and JavaScript for user authentication and file management operations.
- Built backend services using Django to handle authentication, authorization, file management, access permissions, and frontend-backend communication.

CERTIFICATIONS

Python Full Stack Development Course – Techspire Global Solutions(2026)
MySQL Certification – Techspire Global Solutions(

ACHIEVEMENTS

Developed multiple academic and personal projects using Python, HTML, CSS, JavaScript, React.js,Django and MySQL.
